ECOOP 2004 - Object-Oriented Programming

By Martin Odersky

Springer Jun 2004, 2004. Taschenbuch. Book Condition: Neu. 23.3x15.5x cm. Neuware - ECOOP is the premier forum in Europe for bringing together practitioners, - searchers, and students to share their ideas and experience in a broad range of disciplines woven with the common thread of object technology. It is a collage of events, including outstanding invited speakers carefully refereed technical - pers, practitioner reports re ecting real-world experience, panels, topic-focused workshops, demonstrations, and an interactive posters session. The 18th ECOOP 2004 conference held during June 14-18, 2004 in Oslo, Norway represented another year of continued success in object-oriented p- gramming, both as a topic of academic study and as a vehicle for industrial software development. Object-oriented technology has come of age; it is now the commonly established method f most software projects. However, an - panding eld of applications and new technological challenges provide a strong demand for research in foundations, design and programming methods, as well as implementatio techniques. There is also an increasing interest in the in- gration of object-orientation with other software development techniques. We anticipate therefore that object-oriented programming will be a fruitful subject of research for many years to come.

This year, the program committee received 132 submissions, of which 25 were accepted for publication after a thorough reviewing process. Every paper received at least 4 reviews. Papers were evaluated based on relevance, signi cance, clarity, originality,...

Reviews

It in a of the most popular publication. It is actually rally intriguing throgh looking at time period. Your daily life span is going to be change the instant you total reading this publication.
-- Mrs. Shanna Mann
